

Certificate of Completion

this certificate is presented to:

Claudiu Furtea

for completion of Module 2 in
Web Development - beginner.

After completing a 4 month Web Development course - beginner level, the participant learned how to generate landing pages for simple and medium requests, build functionalities with WordPress plugins and integrate custom HTML templates in a WordPress website.

Being part of a community, Generația Tech helps Explorers to improve their soft skills such as communicating effectively, teamwork, autonomy and proactivity, and developing a solution-oriented mindset.
